# NSL115MB

## Quality

- 12 V battery.
- Battery Type Lead-Acid, translucent flat plate.
- A high reability, robust casing.
- Average life of 7 years.
- Battery design for stationary cycling applications, especially for solar energy.
- They need maintenance, electrolytes need to be filled with distiled water.
- Circular terminal connection.
- The temperature range of the cycles ranges from  $-20^{\circ}$ C up to  $+45^{\circ}$ C.

Ref: 14003405

#### Certificates

- CE
- IEC 254-1

300 cycle of life.

### Mechanical Data

Dimensions	334 x 171 x 238 mm
Weight	23,0 kg
Вох	PP
Design	Flat plane

#### **Electrical Data**

Nominal Voltage	12 V
Rated Capacity	115 Ah
Electrolyte	Dilute sulfuric acid
Electrolyte Specific Gravity	1,28 ± 0,01 kg/l
Electrolyte volum	4,6
